OBJECTIVE

I am an experienced React.js Developer with 2.3 years of professional expertise. I excel in Web Development and Integration, equipped with strong Problem-Solving skills. I have a high proficiency in JavaScript and related frameworks. I am enthusiastic about executing and launching new projects and consistently strive to acquire new knowledge. I possess the capability to translate business requirements into effective technical solutions. Currently, I am seeking a challenging position within the Information Technology department to further enhance and expand my technical knowledge.

EXPERIENCE

February 2021 – PRESENT

JR. SOFTWARE DEVELOPER, TEXTCODE TECHNOLOGIES PVT LTD, PUNE

- Manage the user interface (UI) by utilizing HTML, CSS, JavaScript, React.js, and Redux.
- Develop reusable components to enhance code efficiency and improve the performance of web applications.
- Conduct regression unit testing to ensure the quality of the code before submitting it for quality assurance (Q/A) processes.
- Optimize code to improve search engine optimization (SEO) and enhance page speed.
- Develop applications according to the specific requirements of the company.
- Ensure the user interface (UI) is fully responsive across various browsers and devices by employing CSS, Bootstrap, and Material-UI.
- Oversee the entire conversion process from user experience (UX) to user interface (UI) by utilizing HTML, CSS, and React.js.

EDUCATION

JUNE 2022

B.TECH (MECHANICAL), MGM COLLEGE OF ENGINEERING

With 7.64 CGPA

FEB 2018

HSC (SCIENCE), YOUSUFIA JR.COLLEGE

With 62 %

SKILLS

- HTML/HTML5
- CSS/CSS3
- JavaScript
- ES6
- React.js
- Bootstrap
- Material-UI
- Redux
- TypeScript
- jQuery
- JSX
- Git
- MS Office
- Vs-code
- Jira
- GitHub

SUMMARY OF SKILLS

- Proficient in Designing Tools such as HTML, CSS, ES6, JavaScript, Bootstrap, and React.js.
- Comprehensive understanding and hands-on experience in all phases of Software Development, from project initiation and definition to deployment and support.
- Proficiency in working with JSON, GitHub, and Visual Studio Code.
- Demonstrated ability to deliver high-quality products within specified timelines and excel in challenging work environments.
- Enthusiastic about embracing modern technologies, seeking new challenges, and quickly adapting to new environments to consistently meet project deadlines.

PROJECTS

PROJECT 1 || Transport Management System:

TEAM SIZE: 6

Description: The objective of this project is to deliver comprehensive functionalities pertaining to Transportation, Drivers, and Vehicles by leveraging React.js, Material UI, and CSS. The project encompasses multiple features, including Transportation Management, Driver Enrollment, Driver List, Driver Performance Card, Vehicle List, and Vehicle Allotment to Drivers. The administrative user can track all relevant information and perform operations related to Transportation, Drivers, and Vehicles.

Roles & Responsibilities:

- Developed the user interface utilizing React.js.
- Implemented responsive web design by utilizing React Bootstrap, MaterialUI, HTML5, and CSS3.
- Established connectivity with API services through the utilization of the fetch method.
- Designed and implemented dynamic and reusable components.
- Developed React components using functional programming techniques.
- Managed code versioning by pushing and pulling code to the GitHub repository.

PROJECT 2 || E-LEARNING APP:

TEAM SIZE: 7

Description: E-Learning is a professional online learning application that primarily focuses on providing selected courses with executable programming codes. Additionally, the application offers an online dictionary feature to assist learners in searching for difficult words. Moreover, it includes a functionality to notify learners about the latest job openings.

Roles & Responsibilities:

- UI development by using React JS with React Hooks.
- Managing application-level state by using Redux and Redux hooks – useDispatch, useSelector.
- Highly complex components designing by using React with minimum usage of third party NPM packages.
- Designing and using dynamic and reusable components.
- Implementation of connectivity with API services by using axios or fetch.
- Pushing and pulling code to GitHub repo.
- Design and develop static or dynamic components based on the requirements from product owner.

PERSONAL DETAILS

- Name : **Mohammed Asif Khan**
- Date of Birth : **7th Nov 2000**
- Gender : **Male**
- Nationality : **Indian**
- Languages Known : **English, Hindi, Urdu, Marathi**
- Hobbies : **Learning new Technologies, Travelling, Cricket.**

Declaration: I hereby declare that the information given above is true and the best of my knowledge.
